Weekly reports. Annual Report. Project End or Annual re-evaluation.

Strategic evaluation and planning and team re-evaluation.
Overview

In a recent report on outsourcing by Accenture seven key issues emerged for successful outsourcing.

- Build in broad business outcomes early and often.
- Hire a partner, not just a provider
- It's more than a contract, it's a business relationship.
- Leverage gain-sharing.
- Use active governance.
- Assign a dedicated executive.

- Focus relentlessly on primary objectives.

We'll work with you step-by-step to make sure each of these is addressed 100% for total satisfaction.
